Art Unit: 1711

Applicant's election of claims 18-21 in the reply filed on 4-27-05 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claim 20 is objected to because of the following informalities: "triamine" is misspelled in the first compound of the claim; "propyl" is misspelled in the fifth compound of the claim; the sixth compound should read "N, N, N'-trimethyl" in the middle of the compound. Appropriate correction is required.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited references show the individual components of the mixed catalyst of the invention.
